Awakening to Community, in Preparation for the Christmas Conference

Let's delve into the Awakening to Community lecture series, given by Rudolf Steiner one hundred years ago from January to March. These lectures address the aftermath of the burning of the first Goetheanum, and prepare for the refounding of the society at the Christmas Conference of 1923.

Henric will open with a group sharing circle, followed by small group work to discuss selected excerpts from the lecture series.

Come one! Come all! Let's live together into this
year.
