

Colloquium on the forms of work for members of the 1st class

from March 17 to 19, 2023

*"On the essence of colour between light and darkness -
on the 5th class lesson and the Goethean phenomenology of colours"*

After the 1st colloquium on the immediacy of listening in the Class Lessons of February 2022, we would like to invite you to a further step on 17-19 March 2023 at the Goetheanum - Holzhaus.

The focus will be on the one hand on different forms of working on the 5th Class Lesson as presented in the Easter Newsletter 2022. A free rendering of the Class Lesson will form the basis. A second step will practise the approach to the introduction to the mantras in dialogue. In the final 3rd form of this lesson on Sunday, an attempt will be made for all participants to share the responsibility for a class lesson arising from the midst of the community, in this case the 5th mantram group. For this, an appropriate time of preparation before the colloquium has proved useful.

In addition, there will be Goethean reflections on the phenomenology of colours to deepen the experience of what colour is as an experience in contrast to light and darkness. The aim of the work is to build up a kind of question-relationship between this 'class lesson of balance' between light and darkness and the essence of colours, which can unfold inwardly as a middle element. Artistic eurhythmy exercises will accompany the joint work.

To register, please contact Nicolas Criblez, tel. 0041 61 70 64 309, or via email: hochschule@goetheanum.ch.

On behalf of the initiative group:

Oliver Conradt, Christiane Haid, Matthias Rang, Claus-Peter Röh, Silke Sponheuer, Kees Veenman

PROGRAMME

Friday, March 17

- 19.00 Welcome, The Essence of Colours *Kees Veenman*
20.00 5th Class Lesson (freely) *Matthias Rang*

Saturday, March 18

- 09.00 Class-Lesson discussion I on the 5th Class Lesson
09.45 Experiments on colour between light and darkness *Matthias Rang*
