SCHLOSS HAMBORN

# We warmly invite you to join us in celebrating the foundation of the youth section in Germany.

We are a group of young people who carry a flame for anthroposophy in our hearts. We want to create heartfelt spaces where young people can come together to share their authentic striving for the spiritual. Bringing initiatives together that share a connection to anthroposophy is another core aspect of our vision. From the 30th of June - 2nd of July we want to officially celebrate the birth of our impulse on the grounds of Schloss Hamborn.

## We look forward to welcoming guests of all ages who want to come, witness and support us in founding the youth section in Germany!
