

Generation Wind of Spirit
Messages From The Youth

Dear young friends!

I warmly invite you to participate in a courageous project entitled *Generation Wind of Spirit*. My intention with this project is to investigate, understand and experience the work of the Good Spirit of human and earth development that is living in you, your generation, and in the transformation of our cultures.

The leading question are: *how does the spirit work in the young generation, in your individual development, and in the emergence of a new art of encounter with oneself self, another, and the world?*

If this project sparks interest in you, please quietly reflect on the following:

What have you experienced that has changed your attitude on life? What were the moments that inwardly transformed you, and those that gave you a new sense of inner and outer determination? Were you able to experience a force from which these experiences arose? Were you able to experience inspirations in social encounters that brought forth something entirely new? And lastly, do you feel that your experiences are important to share with your friends and your generation to help aid in spiritual community building?

If you feel enthusiastic about this impulse, please write down these experiences and share them with me. I will carefully and respectfully compile your experiences, and form them into a book entitled, *Generation Wind of Spirit - The spiritual self-understanding of the young generation - Present determinations and the transformative ways of young people*.

Please write one to three pages about your experiences, signed with your name, age and country of origin, or anonymously. You may also include a photo of yourself if you wish.

In addition to the book, there is also potential for this project to continue on in other forms. This second step is yet to be determined, and would likely involve more in-depth collaboration between those who are interested. I look forward to the many possibilities, and welcome conversation.

My name is Michael Hille, and I will be leading this project. Please feel free to contact me (michael.hille.1@gmx.de) if you have any questions or need support. I am glad to be of service. I will also keep you updated on the developments and dynamics of the project if you wish.

Through *Genration Wind of Spirit* we will strive to experience and learn to love the *spirit of development* authentically, individually and collectively.

With warm regards,
Michael Hille
