Annual Conference 2027

Section for Social Sciences

Save the Date & Early-bird Tickets

Amid a world situation marked by shadows and crises, a sense of the world as a whole is growing at the same time. The question of how to grow into world responsibility is moving increasingly into the center of attention. With this in mind, we would like to work together with all interested people to develop a panorama of the Section's present field of work, the social sciences, and the threefolding of the social organism, and to place it in dialogue with actors of our time. We look forward to your participation! The short survey (approx. 5 minutes) helps us to shape the conference together.
