Call for voluntary annual contribution 2024 (FJB24)

Dear Colleagues in the art therapies worldwide,

We look back in 2024 on a varied and dynamic year. In the team of the International Coordination, we have been committed to supporting, networking and giving visibility to the arts therapies in the various specialist areas (modelling, painting & design, music & singing, and speech & drama). We consider it important that there should be an awareness of us within the Medical Section and in all areas of anthroposophic medicine, and that networking and mutual support between all medical professional groups is made possible.

We see our work as being on behalf and in the interests of all of you, and we do it with pleasure.

Esther Böttcher, Linda Teipen and I work for the Coordination alongside our professional activities as art therapists – often on our free weekends, too. We do not live in Dornach, which means that travel expenses occasionally arise. We are compensated by the Medical Section for some of our hours worked. A large part of our finances is based on donations. **That is why we rely in part on your financial support.** You can use the account details below for your much-appreciated annual contribution, with a guideline amount of one 60-minute therapy session. It is possible to get a donation receipt.

We would also be pleased if you would tell potential associations, institutions and individual donors about our work, thus enabling our funding in this way.

With a big thank you to all of you and very best wishes for your work in the arts therapies all over the world!

For the ICAAT team on 18 October 2024,

Donations with donation receipt, Germany
(for free remittances from within the EU):

**Förderstiftung Anthroposophische Medizin
Deutschland**, Bergwerkstr. 39
79688 Hausen - DE
